OVERVIEW

Familiar and better than ever

Windows 10 is familiar and easy to use, with lots of similarities to Windows 7 including the Start menu. It starts up and resumes fast, has more built-in security to help keep you safe, and is designed to work with software and hardware you already have.

Millions of people are already using Windows 10

The Windows Insider Program is a global community of fans who love Windows and want to help make it better. Insiders see the operating system in its earliest stages, and play a role in shaping it. Their feedback has contributed to the best Windows ever.

Make the web work the way you do

Microsoft Edge lets you move quickly from browsing to doing. Write1 or type notes directly on webpages and share them with others, read online articles free of distraction, and save your favorite reads for convenient access later.

Multi-doing helps you get to done faster

Get to done faster by better managing your desktop. Snap up to four things on one screen at the same time and create virtual desktops whenever you need more space or want to group things by project, like Office apps for work and games for play.
