Office 365 ProPlus is a business subscription plan that charges per user rather than per device and provides users with many more Office apps and services than other Office 365 options.

Office 365 ProPlus subscribers are allowed to install all of the associated Microsoft products and services on up to five Windows or Mac computers, five iOS or Android tablets, and on up to five iPhone or Android smartphones.

This subscription model can be cheaper for companies who have a small number of employees who use multiple devices. It can be more expensive for companies that have numerous employees that use only one. In the latter case, an [Office 365](#) plan that charges per device would be a more appropriate option.

Which Microsoft Apps Comes With Office 365 ProPlus?

Microsoft Office 365 ProPlus includes the following Office apps.

- Word
- Excel
- PowerPoint
- Outlook
- OneDrive for Business
- OneNote
- Publisher
- Skype for Business
- Access
- Sharepoint

As part of the Office 365 ProPlus subscription, all of the apps get the latest software updates as soon as they're released. Mobile versions of each app, except [Publisher](#) and [Access](#), are available for iOS and Android smartphones and tablets. You can use online versions of [Word](#), [OneNote](#), [PowerPoint](#), and [Excel](#) on any device at any time.

In addition to all of the apps and their associated services, Office 365 ProPlus subscribers get 1 TB of cloud storage on [OneDrive for Business](#).

There are also administration tools for adding and removing users and [installing and updating the Office](#) apps on multiple devices.
